

CAMPING FIREPIT

Odd rows blocks
(1, 3, 5, etc.)

Even rows blocks
(2, 4, 6, etc.)

To install additional rows:

4th row (Even row): refer to the schematic of the 2nd row.

5th row (Odd row): refer to the schematic of the 1st and 3rd row.

The accessories bracket kit is installed at the end, under the last row, according to the plan supplied with the accessories bracket kit.

Each of the blocks installs flat. For aesthetic reasons, the arched side is positioned towards the outside of the fireplace and the flat side of each block is positioned inward. Accessories bracket kit is required for use of optional items (screen, cooking grill, etc.) For greater safety, we recommend the use of the Modular Pyramid screen. Visit www.feuardent.com (Assembly section) for a complete illustrated assembly guide for your fireplace. See also instructions on reverse. For outdoor use only.

CAMPING FIREPIT

Assembly instructions

Important : Each of the blocks installs flat. For aesthetic reasons, the arched side is positioned towards the outside of the fireplace and the flat side of each block is positioned inward. Visit www.feuardent.com (Assembly section) for a complete illustrated assembly guide for your fireplace.

Preparation: For the assembly of your fireplace you will need a level surface (stone dust, sand or concrete) of a least 36 1/2" by 36 1/2".

For your 1st row: you will need 4 Odd rows blocks (with no identification mark under the block). This row will be installed counter-clockwise.

1. On a level surface, place the 1st block of the 1st row (Odd rows blocks), starting from the front. Place it at the right end of your fireplace assembly location.
2. Place the 2nd block (Odd rows blocks) to the right of, but above, your 1st block perpendicularly so that the corner angles design lines up together.
3. Place the 3rd block (Odd rows blocks) perpendicular to your 2nd block as in the previous step.
4. Place the 4th block (Odd rows blocks) perpendicular to your 3rd block as in the previous step so that it joins the 1st block. This completes your 1st row.

For your 2nd row: you will need 4 Even rows blocks (with identification circle under the block). This row will be installed clockwise.

5. Place at the left end at the front the 1st block (Even rows blocks) on top of your 1st row.
6. Place the 2nd block (Even rows blocks) perpendicular to your 1st block so that the corner angles design lines up together.
7. Place the 3rd block (Even rows blocks) perpendicular to your 2nd block as in the previous step.
8. Place the 4th block (Even rows blocks) perpendicular to your 3rd block as in the previous step so that it joins the 1st block. This completes your 2nd row.

For your 3rd row: you will need 4 Odd rows blocks (with no identification mark under the block). This row will be installed counter-clockwise.

9. Place at the right end at the front the 1st block (Odd rows blocks) on top of your 2nd row.
10. Place the 2nd block (Odd rows blocks) perpendicular to your 1st block so that the corner angles design lines up together.
11. Place the 3rd block (Odd rows blocks) perpendicular to your 2nd block as in the previous step.
12. Place the 4th block (Odd rows blocks) perpendicular to your 3rd block as in the previous step so that it joins the 1st block. This completes your 3rd row.

Additional rows:

For the assembly of a 4th row (Even row) you will need 4 Even rows blocks (with identification circle under the block). This row will be installed clockwise. Refers to the step of the 2nd row.

For the assembly of a 5th row (Odd row) you will need 4 Odd rows blocks (with no identification mark under the block). This row will be installed counter-clockwise. Refers to the step of the 1st row or the 3rd row.

And here assembled your Feu Ardent outdoor fireplace.

Mandatory accessoiry :

The accessories bracket kit is required for the use of optional items.

(The accessories braket kit is installed at the end of the assembly of the fireplace, under the last row according to the plan supplied with the accessories brakets kit)

Optional accessories available for this model :

Fire accessories : Modular pyramid screen (recommended), Cast iron log grate, Poker, Additional row.

Cooking accessories : Stainless steel grill 18" x 25", Enameled cast iron grill 18" x 25½", Charcoal holder (coalman), Hood with / without electric rotisserie, Lid for barbecue.
